

Alamo1 is currently hiring for Specialized Construction

Job Title: HVAC -Technician

Closing Date / Time: ONGOING

Location: Offices – San Antonio, Texas

Pay: DOE

We are looking for a hardworking and energetic individual that will fit into our fast-paced work environment. This is a great opportunity since we believe in rewarding hard work, reliability and honesty!

Daily work will involve heavy industrial lifting, lifting waist high, gripping with hands, moving at a brisk consistent pace, and occasional bending.

Duties:

- Test pipe or tubing joints or connections for leaks, using pressure gauge or soap-and-water solution.
- Test electrical circuits or components for continuity, using electrical test equipment.
- Repair or replace defective equipment, components, or wiring.
- Discuss heating or cooling system malfunctions with users to isolate problems or to verify that repairs corrected malfunctions.
- Repair or service heating, ventilating, and air conditioning (HVAC) systems to improve efficiency, such as by changing filters, cleaning ducts, or refilling non-toxic refrigerants.
- Install, connect, or adjust thermostats, humidistats, or timers.
- Connect heating or air conditioning equipment to fuel, water, or refrigerant source to form complete circuit.
- Study blueprints, design specifications, or manufacturers' recommendations to ascertain the configuration of heating or cooling equipment components and to ensure the proper installation of components.
- Comply with all applicable standards, policies, or procedures, such as safety procedures or the maintenance of a clean work area.
- Install auxiliary components to heating or cooling equipment, such as expansion or discharge valves, air ducts, pipes, blowers, dampers, flues, or stokers.
- Lay out and connect electrical wiring between controls and equipment, according to wiring diagrams, using electrician's hand tools.
- Inspect and test systems to verify system compliance with plans and specifications or to detect and locate malfunctions.
- Record and report time, materials, faults, deficiencies, or other unusual occurrences on work orders.
- Install and test automatic, programmable, or wireless thermostats in residential or commercial buildings to minimize energy usage for heating or cooling.
- Adjust system controls to settings recommended by manufacturer to balance system.
- Install dehumidifiers or related equipment for spaces that require cool, dry air to operate efficiently, such as computer rooms.
- Recommend, develop, or perform preventive or general maintenance procedures, such as cleaning, power-washing, or vacuuming equipment, oiling parts, or changing filters.
- Install magnetic-centrifugal chillers, compressors, or related equipment to cool air temperatures through the use of recirculating water.
- Cut or drill holes in floors, walls, or roof to install equipment, using power saws or drills.
- Measure, cut, thread, or bend pipe or tubing, using pipe fitter's tools.

- Install or repair air purification systems, such as specialized filters or ultraviolet (UV) light purification systems.
- Assemble, position, and mount heating or cooling equipment, following blueprints or manufacturer's specifications.
- Fabricate, assemble, or install duct work or chassis parts, using portable metal-working tools or welding equipment.
- Install radiator controls for room-level zone control heating of residential or commercial buildings.
- Install or repair self-contained ground source heat pumps or hybrid ground or air source heat pumps to minimize carbon-based energy consumption and reduce carbon emissions.
- Wrap pipes, securing insulation in place with cement or wire bands.
- Report any unsafe conditions.
- Learn and understand equipment thoroughly to ensure safe operations.
- Be able to work in a fast paced, team environment.
- Be able to work outdoors in all types of weather.
- Be able to follow safe operating practices.
- Be able and willing to work in a team environment.
- Be able to read, write and comprehend reports well enough to complete daily assignments.

Qualifications:

- Must be able to pass a Background check and MVR
- Hear in the normal audio range with or without correction
- See in the normal visual range with or without correction
- Exhibit normal range of body motion
- Ability to perform pushing, pulling, bending, lifting of up to 75 pounds throughout the shift with or without reasonable accommodations
- Understand and carry out oral and written instructions.

Experience Required:

- Experience – 4-5 year experience

Certificates, Licenses and Registrations Required:

- Must be able to obtain a security clearance.
